

Smart Temperature Self-adjustable LED Strip

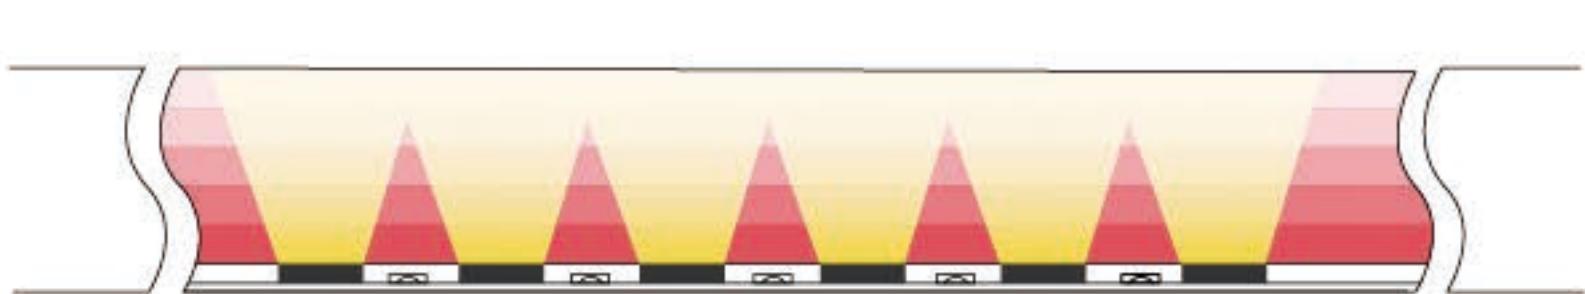

RS-FS-2835-192LEDs/m 18W/m 2000lm/m 24V 10mm width PCB

- **Smart Temperature self-adjustable** the strip can avoid fire disaster and long life-span.

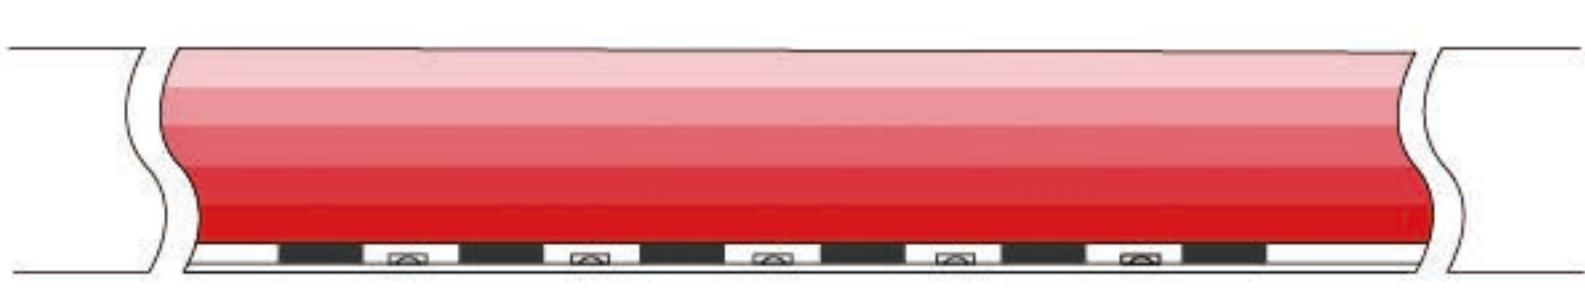

Working temperature $<65^{\circ}\text{C}$

Brightness 100%

Working temperature $>70^{\circ}\text{C}$

Brightness 80%

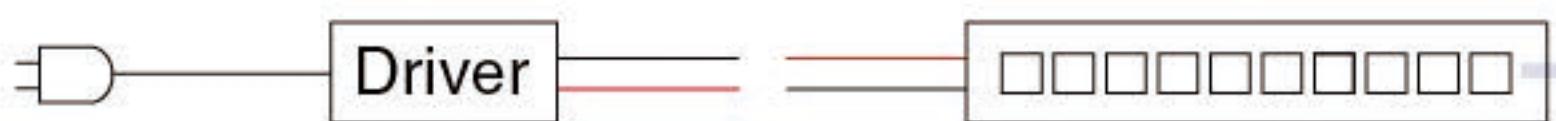

Working temperature $>75^{\circ}\text{C}$

Brightness Turn off

• REVERSE CONNECTION PROTECTION

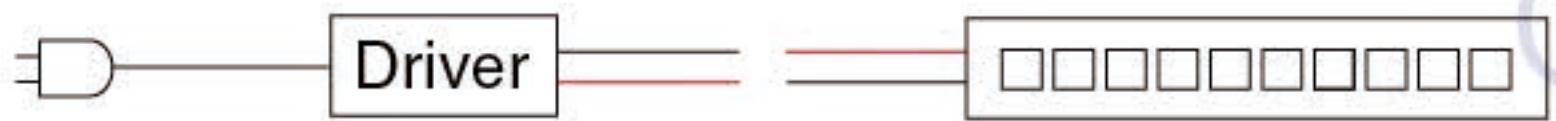

NORMAL STRIP

Normal strip will be damage if connection the “+” “-” wrong

SMART STRIP

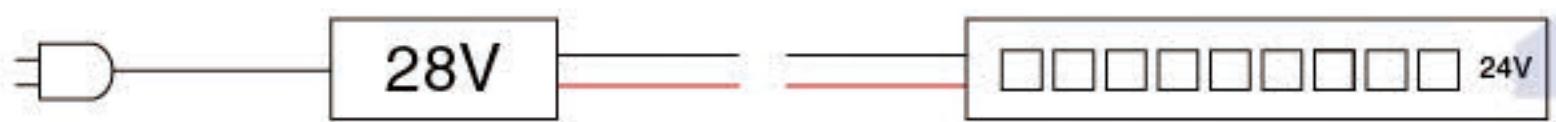

Smart strip will be protection and not damage the strip

• OVER VOLTAGE PROTECTION

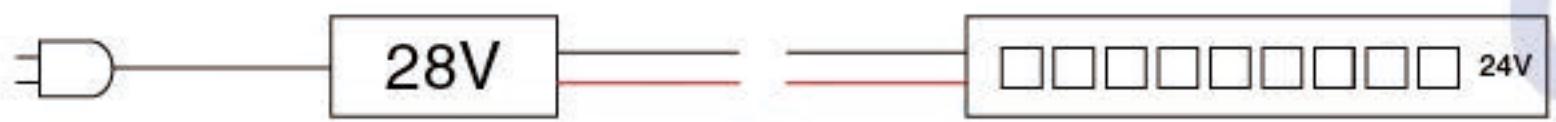

NORMAL STRIP

Normal strip will be damage if the voltage over 24V

SMART STRIP

Smart strip will be protection and not damage the strip
